

Trivia Database Quick Guide

We have free access to a database of Trivia Questions to help fill gaps for quiz time.

To get an easily copyable list you can visit https://opentdb.com/api_config.php and fill out the form, copy the generated URL into your browser and a list of questions will show.

Otherwise; you can use one of these links

[30 Questions, Mixed Difficulty](#)

[30 Questions, Easy Difficulty](#)

[30 Questions, Medium Difficulty](#)

[30 Questions, Hard Difficulty](#)

Questions will be formatted with HTML encoding and will include some annoying replacement codes for symbols.

if you copy and paste the text all into a Spreadsheet or Word processor, you can do a find and replace to fix this.

Find	Replace
'	'
"	"
&	&
­	replace with nothing (it makes a hyphen if the word breaks across lines)

Otherwise dump the text into https://emn178.github.io/online-tools/html_decode.html and it'll rebuild the text for you.
